ABOUT

Every cloud has its silver lining and Helena & Bram - the creators behind this lovely sustainable brand - have taken this very literally!

When Helena's baby boy Lionel was born, she went searching for aesthetic, personal and sustainable baby stuff. She decided to put her degree 'Fashion & Styling' to good use and started creating the sweetest baby-essentials.

Four years later Helena decided to introduce her creations to a broader audience and founded *Lil' Papoe*, the brand name referencing her son, Lionel's Papoea New Guinea's background. Helena's personal touch is showing in the wonderful designs, Bram's musical talent is audible ... He composed the music cloud's sweet lullaby!

Lil' Papoe creations are unique, handmade with lots of love, attention to detail and fine finish. Designed and manufactured in Antwerp from natural materials, such as 100% organic cotton and wood. Since June 2021, a part of production has been outsourced in Portugal. Honest and sweet for little ones, their parents and the planet, putting the greatest effort in being as sustainable as possible.

FABRICS

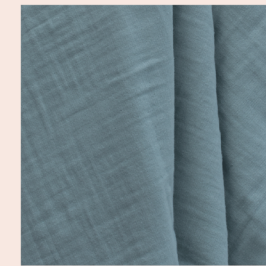

Our triple-gauze muslin cotton and our teddy cotton are both 100% certified organic, according to the global organic textile standard. These luxuriously supersoft fabrics are woven in Portugal by a textile company paying a fair wage, providing safe working conditions and treating our environment with care, according to strict European regulations. We work directly with mills to weave to our specifications, which produce richly colored fabrics that wear and wash up well over time.

All our fabrics are obviously Oeko-Tex 100 Standard approved. STANDARD 100 by OEKO-TEX is one of the world's best-known labels for textiles tested for harmful substances. It stands for customer confidence and high product safety. In the test they take into account numerous regulated and non-regulated substances, which may be harmful to human health.
